

 An innovative solution for business centres

6-in-1 Digital Solution for Business Centres

Modernise the management of your clients, mail and teams with a complete, intuitive and professional platform.

Professional Website

CRM & Client Management

Mail Management

Built-in AML / KYC

Peppol Invoicing

Mobile Apps

 PLATFORM

A complete platform

All essential tools brought together in a single, modern and easy-to-use solution

Professional Website

A modern, responsive website reflecting the professional image of your business centre.

Complete CRM

Centralise all client information, history and exchanges in one place.

Mail Management

Smart system for receiving, notifying and tracking your clients' mail.

Client mobile app

Your clients access their information and mail directly from their smartphone.

Staff mobile app

Your team manages mail and clients on the go, efficiently.

Hosting & Support

Secure hosting, continuous maintenance and technical support included.

⚡ PRODUCTIVITY

Fast mail handling

Receive and notify mail in seconds thanks to the staff mobile app.

Photo of the envelope

Staff simply takes a photo of the incoming envelope.

Instant notification

The client is immediately notified on their smartphone.

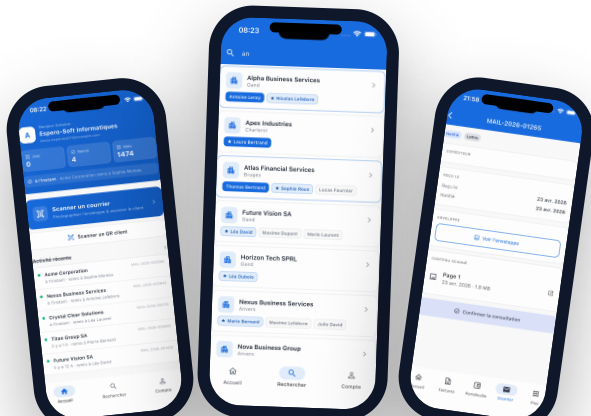

Automatic logging

Mail is automatically archived in the CRM.

Time saved

Considerably less processing time for the front-desk team.

3 sec

Processing time per mail item

100%

Mail tracked and archived

0

Calls to reception required

 NATIVE APPS

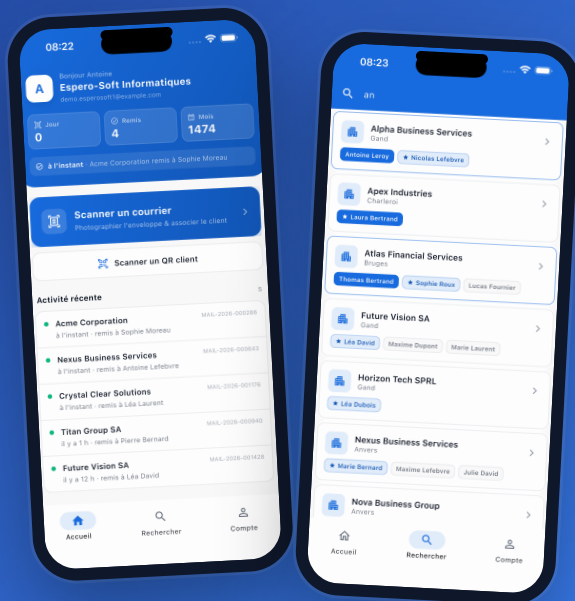

Dedicated mobile apps

Tools designed for each user — staff and clients

Staff app

For your front-desk and day-to-day management team.

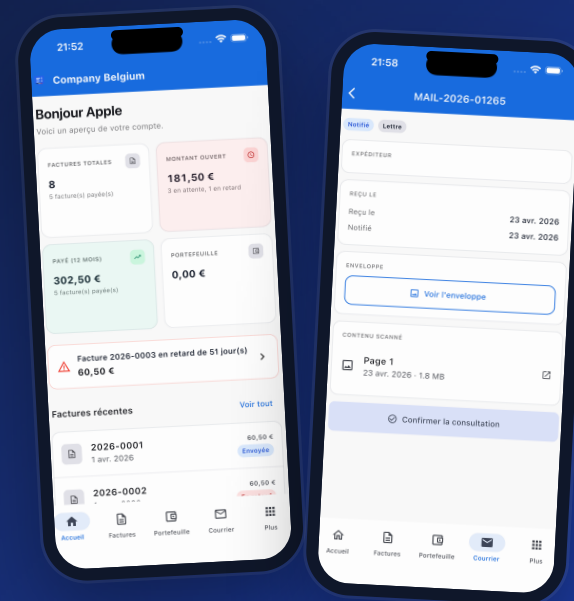

- ✓ Scan and photograph envelopes
- ✓ Notify clients instantly
- ✓ Access client information
- ✓ Track tasks and actions
- ✓ Save time every day

Client app

For companies registered at your centre.

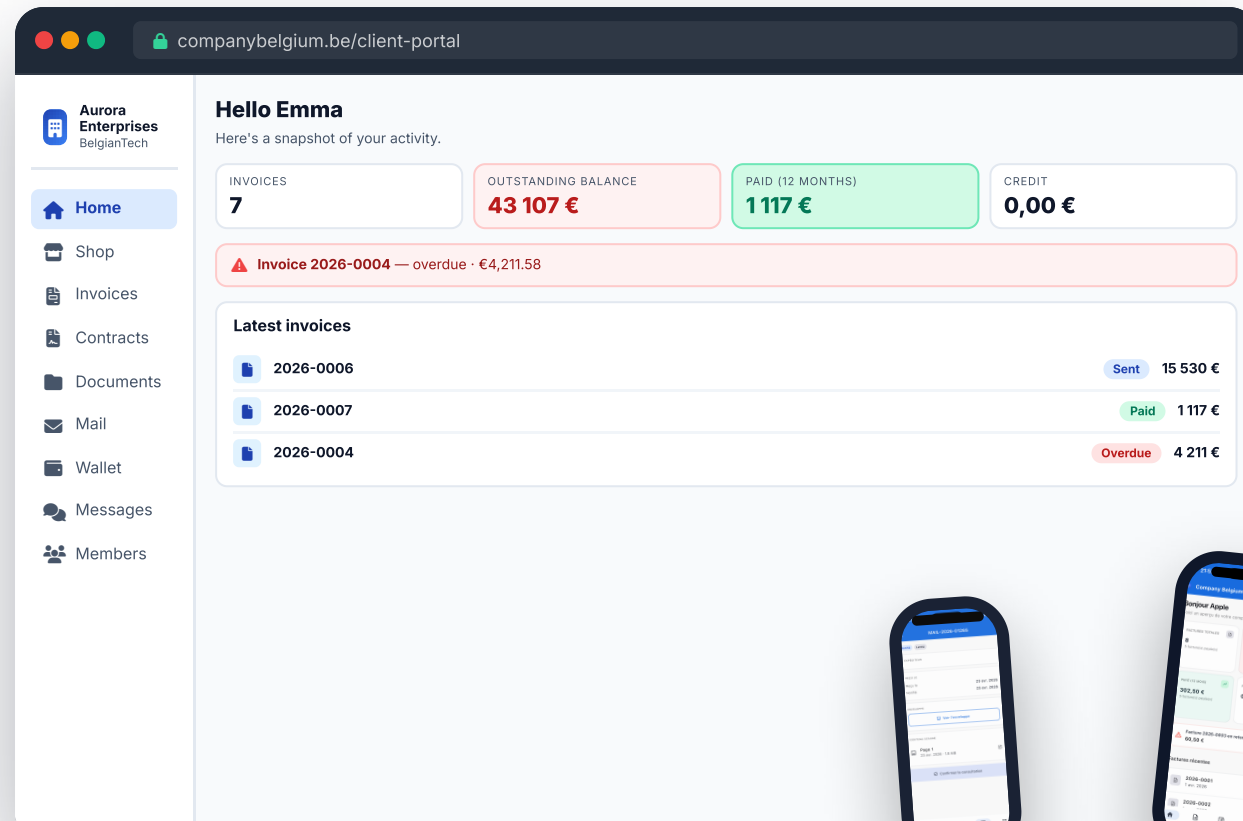

- ✓ Receive instant notifications
- ✓ See a photo of their mail
- ✓ Track mail in real time
- ✓ Access important information
- ✓ Communicate with the centre

 MULTI-CHANNEL

Your clients connected **everywhere** · Web & Mobile

Every client of your centre has a dedicated workspace available 24/7 — from any web browser or the native iOS & Android mobile apps.

Invoices & payments

View, download as PDF, and secure online payment.

Mail in real time

Envelope photo, scanned content, automatic archiving.

Contracts & documents

All administrative documents available in a few clicks.

Messaging & support

Chat directly with your centre from the client portal.

A premium client experience, on every device

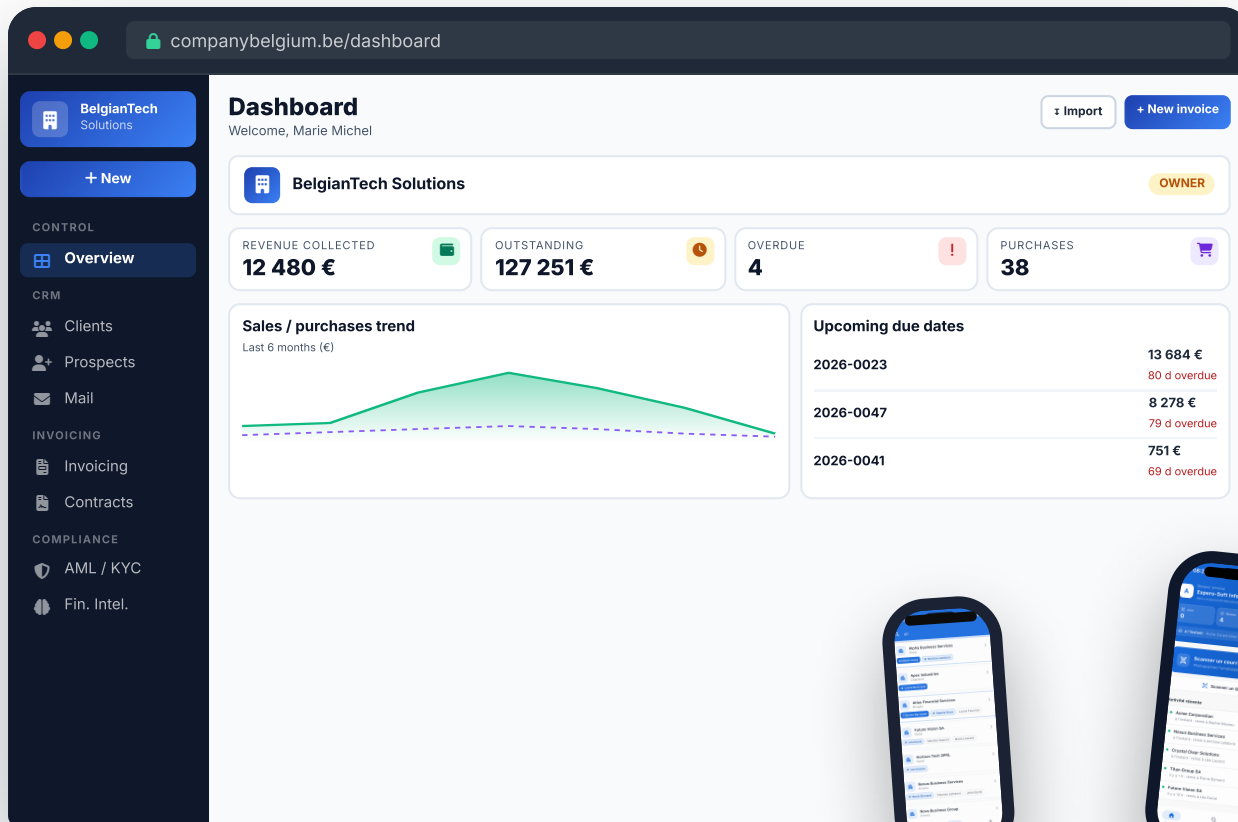

Secure authentication · web ↔ mobile interfaces in sync · available 24/7 with no call to reception.

 BUSINESS-CENTRE CONTROL

Staff workspace · Web & Mobile

A full web console to run your centre — paired with a native mobile app to handle mail on the move (scan, notify, deliver).

- Envelope scan**
Photo + recipient recognition in a single gesture.
- Client notification**
Instant push on the app + email with preview.
- Hand-off & signature**
Carrier check, ID document, signature.
- CRM archiving**
Mail history traceable on both web & mobile.

Streamlined workflow: from reception to handover in seconds

Full web console for management · native mobile app for front-desk staff · real-time synchronisation.

 CLIENT RELATIONS

A **complete** CRM for business centres

Centralise all your operations in a single powerful tool

Company management

Complete, well-organised client profiles, with BCE/KBO data in real time.

Mail history

Full traceability of receipts and notifications.

Document archiving

Secure storage of professional records and documents.

Conversation tracking

Full communication history with each client.

Admin management

Contracts, invoices and documents centralised.

Full organisation

All information accessible in a single click.

 MANDATORY COMPLIANCE

Essential AML / KYC module

Meet your legal obligations on anti-money-laundering and client identification.

KYC — Know Your Customer

Full identity checks of your clients and ultimate beneficial owners.

- ✓ Automated document collection
- ✓ Digital identity verification
- ✓ UBO identification
- ✓ Automatic risk scoring

AML — Anti-Money Laundering

Detection and prevention of money laundering in line with regulations.

- ✓ PEP & sanctions screening
- ✓ Transaction monitoring
- ✓ Automatic alerts
- ✓ Compliance reports

Financial Intelligence

Advanced analysis and continuous monitoring of your business relationships.

- ✓ Automatic BCE/KBO monitoring
- ✓ Continuous monitoring
- ✓ Risk analysis
- ✓ Full history

Legal obligation BELGIAN LAW

Business centres are subject to Belgian anti-money-laundering law. You must identify your clients, understand the nature of their business and report any suspicious transactions to CTIF. Our solution supports you in meeting all these obligations.

EUROPEAN STANDARD

Peppol invoicing aligned with European standards

Issue and receive compliant e-invoices — mandatory for public-sector procurement in Belgium and across Europe.

E-invoices

UBL format compliant with Peppol requirements.

- ✓ UBL 2.1 format
- ✓ Automatic validation
- ✓ Electronic signature
- ✓ 10-year legal archiving

Peppol network

Connection to the European network for your exchanges.

- ✓ Certified Access Point
- ✓ B2G & B2B sending
- ✓ Automatic receipt
- ✓ Full traceability

Public Procurement

Direct invoicing of European public administrations.

- ✓ Directive 2014/55/EU
- ✓ Mercurius (BE)
- ✓ Chorus Pro (FR)
- ✓ SDI (IT)

Automation

End-to-end automated invoicing cycle.

- ✓ Automatic generation
- ✓ Payment reminders
- ✓ Bank reconciliation
- ✓ Accounting reports

PRICING ADVANTAGE

Why is our offer unbeatable?

Compare and see for yourself: the Enterprise offer saves you a fortune.

Hire a developer in-house 2 800 € — 4 500 €

gross monthly salary

- ✗ + 35–50% employer charges (BE)
- ✗ Long & expensive hiring (3–6 months)
- ✗ Equipment, licences and training at your cost
- ✗ 6–12 months to deliver a v1
- ✗ Daily maintenance, bugs & fixes
- ✗ Continuous tech watch required
- ✗ Cover front + back + mobile + DevOps
- ✗ Turnover risk · dependence on one person
- ✗ No back-up team during absences
- ✗ No native Peppol, BCE, CTIF integration
- ✗ GDPR / security compliance on your shoulders
- ✗ Hidden costs: leave, sick days, time-off

Real cost: **5 000 € — 7 000 €/mois**

Custom development (agency) ≈ 45 000 €

initial project budget

- ✗ Complex specifications to draft
- ✗ Delivery time: 6–12 months
- ✗ Annual maintenance 15–25% of cost
- ✗ Hosting & ops billed extra
- ✗ Regulatory updates not included
- ✗ AML/KYC specs to write yourself
- ✗ Mobile apps billed separately (+€15k)
- ✗ Frequent budget-overflow risk
- ✗ No continuous evolution after delivery
- ✗ Locked-in code · costly migration
- ✗ No feedback from other business centres
- ✗ Strong dependency on the chosen vendor

Total cost: **45 K€ + 8 — 11 K€/an**

Stack of SaaS subscriptions 1 500 € — 2 500 €

per month (excl. VAT) combined

- ✗ CRM (Salesforce, HubSpot): €400–800
- ✗ Peppol invoicing: €200–400
- ✗ AML / KYC: €500–1,000
- ✗ Mail management + apps: €200–400
- ✗ Separate web hosting: €40–100
- ✗ Tools not specialised for business centres
- ✗ No native integration between tools
- ✗ Duplicate data entry · error-prone
- ✗ Scattered data · complex GDPR
- ✗ Generic mobile apps · not white-label
- ✗ Out-of-sync updates
- ✗ Multiple contacts & invoices

Combined cost: **1 500 € +/-mois**

CompanyBelgium Enterprise from €500

per month · generous usage included
